## 1 PAIR 22 AWG (7/30) STRANDED TINNED COPPER FOIL SHIELDED CABLE WITH DRAIN WIRE, UL CMR CL3R, BLACK JACKET

### Description

- 22 AWG, 1 shielded pair cable constructed with stranded tinned copper conductors, polyethylene insulation, aluminum/mylar shield with stranded tinned copper drain wire and an overall polyvinylchloride jacket for audio, data communications, & security applications manufactured in the USA and (UL) listed CL3R or CMR c(UL)us 75°C. 30pF/ft maximum capacitance

### Construction Details

#### Conductors

- 1 Pair 22 AWG (7/30) Stranded Tinned Copper Conductors

#### Insulation

- 0.043" Nominal O.D.
- Polyethylene 0.008" Nominal Wall
- Color Code: Red, Black

#### Shield:

- Heat Fusable Aluminum/Mylar Tape - 100% coverage (Strips off with outer jacket)
- 24 AWG Drain Wire

#### Jacket

- Polyvinylchloride (Pressured/PVC), Black
- 0.131" Nominal O.D.
- 0.020" Nominal Wall

### Approvals

- UL CL3R or CMR C(UL)US 75°C, FT-4
- ROHS Compliant
