

CA-0482

4 CONDUCTOR 12 AWG (65/30) STRANDED BARE COPPER 300V FLEXIBLE SPEAKER CABLE

Description

- 12 AWG, 4 conductor heavy duty, flexible speaker cable constructed with stranded bare copper, thermoplastic elastomer insulation and tough TPE jacket. Cable may be installed in equipment, portable lights, and speakers, it is approved for outdoor applications including submersion in water. The jacket is sunlight, oil and weather resistant and is rated for 300 volt use, 75°C.

Construction Details

Conductors

- 12 AWG (65/30) Stranded Bare Copper

Insulation

- 0.16" Nominal O.D.
- TPE 0.032" Nominal Wall
- Color Code: Black, White, Red, Green

Filler Material

- Polypropylene

Separator:

- Tissue Wrap

Jacket

- Black Flexible TPE
- 0.481" Nominal O.D.
- 0.047" Nominal Wall

Approvals:

- UL SJEOOW TPE 300V
- Approved for Sunlight, Oil, and Weather Resistant and Water Submersed applications
- Cold Temperature Rating: -40°C
- ROHS COMPLIANT
