

Attention!

For use with instrument (guitar) applications only. Damage may occur if connected to amplifier.

Moving magnet

Right angle plug

The Neutrik silent plug should only be plugged into the guitar. The Neutrik Silent Plug switch can be damaged if plugged into the Amplifier and will not be covered under Best-Tronics' warranty. Also note that the signal is not muted with some types of active electric guitars which are equipped with tip-ring-sleeve jacks that tap to activate the guitar power supply.

Design Criteria

The silentPLUG automatically mutes (shorts) an instrument (guitar) cable to avoid pops and squeals when changing the instrument (guitar) under load.

The integrated silent switch (pat. pending) is based on REED-technology and guarantees a lifetime beyond 10000 mating cycles.

The PX silentPLUG features a rugged metal shell enhanced with a rubber cushion overlay for improved shock protection.

- Avoid pops and squeals
- Hermetically sealed switching contacts
- Lifetime beyond 10'000 mating cycles
- Slim right-angle plug with industry proven and reliable chuck type cable strain relief
- Sleek attractive design for convenient handling and connections
- Rubber overlay on straight housing for best shock-protection and reliability
- L-D version available which accommodates cables O.D. up to 8 mm

Detail Silent Switch:

- Cannot corrode or pollute
- No wear, constant contact resistance
- Decoupled from switching mechanism
